

Website Content Guide

How to update your website yourself

Prepared for Kind Sisters • July 2026

What this guide covers

Your website has a simple admin area where you can add and change content yourself, with no code and no developer. This guide shows you how.

You are in control of four things:

- **Gallery** — the photos shown on your Programs page.
- **Blog** — news posts and stories.
- **Events** — upcoming events and gatherings.
- **Testimonials** — quotes from the people you support.

Everything you add can be saved as a draft first, published when you are ready, and recovered if you delete it by mistake. This guide walks through each task with pictures.

The golden rule: nothing you type appears on the live website until you press **Publish**. So you can experiment freely.

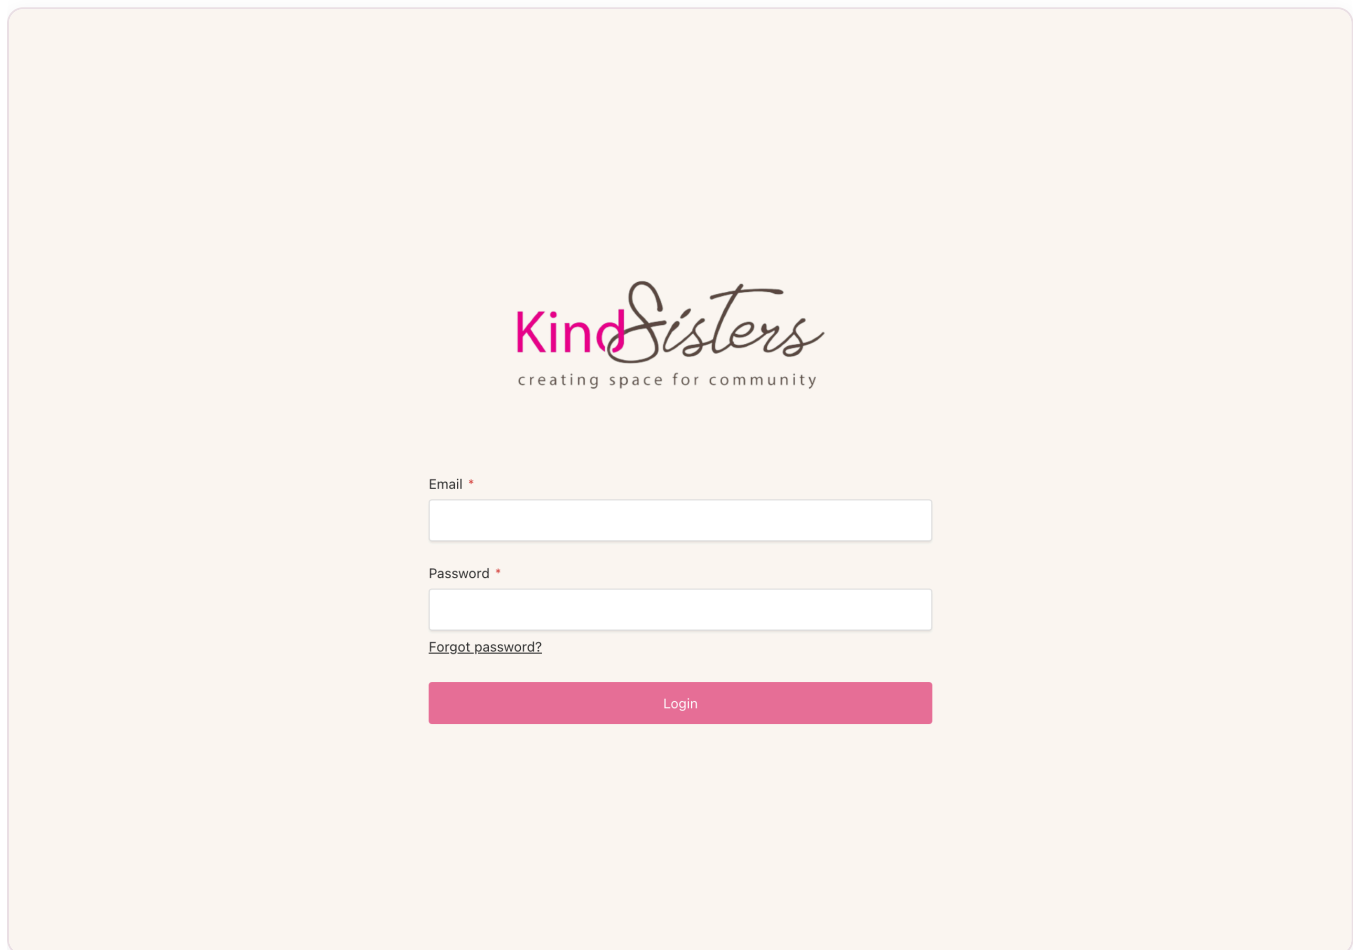

1. Logging in

Go to your website address followed by **/admin**. For example:

kindsisters.org.au/admin

1. Enter your email and password (the login we set up for you).
2. Click **Login**.

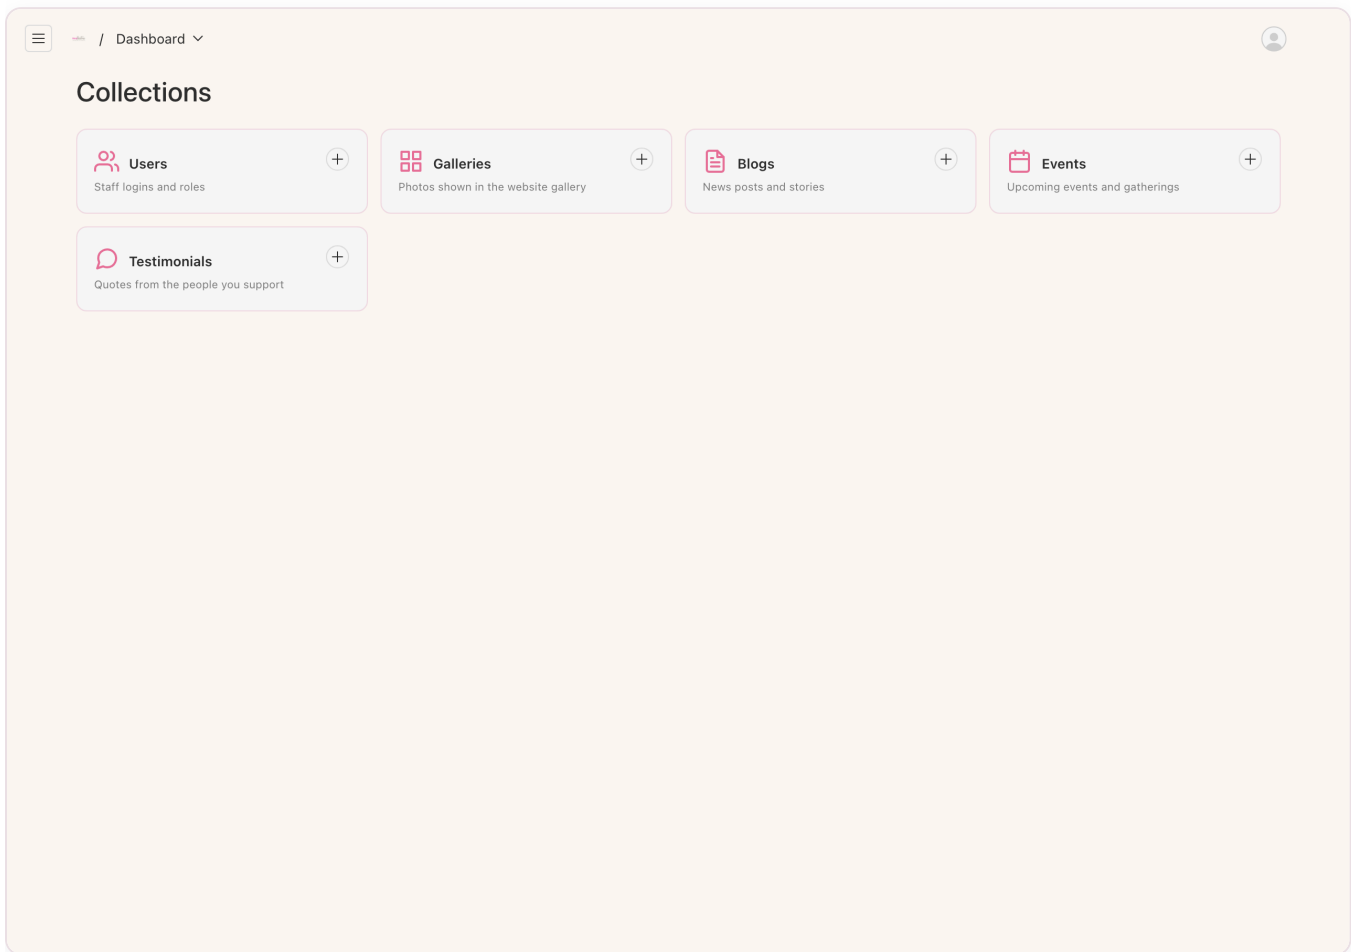

Forgot your password? Click **Forgot password?** and follow the email link.

The image shows a login screen for 'Kind Sisters'. At the top center is the logo, which consists of the word 'Kind' in a pink sans-serif font and 'Sisters' in a black script font, with the tagline 'creating space for community' in a small sans-serif font below it. Below the logo are two input fields: the first is labeled 'Email *' and the second is labeled 'Password *'. Below the password field is a link that says 'Forgot password?'. At the bottom of the form is a pink button with the word 'Login' in white text. The entire form is centered on a light beige background.

The login screen

2. The dashboard

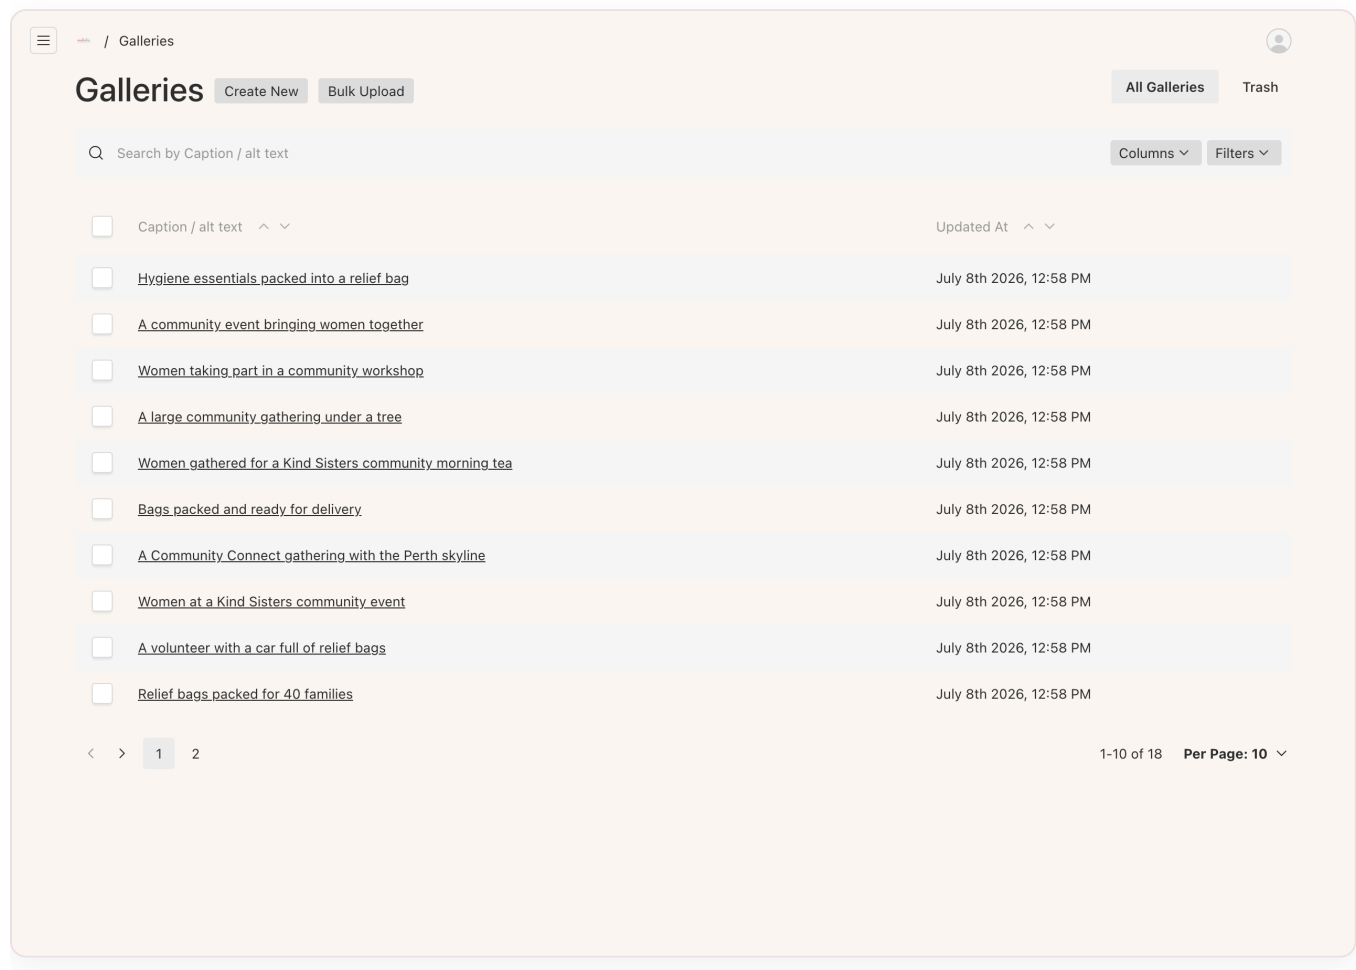

After you log in you see the dashboard. Each card is a section you can manage. Click a card to open it. A short line under each name reminds you what it holds.

The dashboard — your four content areas, plus staff logins

3. Photo Gallery

These are the photos on your Programs page. Click **Gallery** on the dashboard to open it. You see all your photos in a list. Click any row to edit a photo, or click **Create New** to add one.

Your gallery photos — click a row to edit, or Create New to add

Add a photo

1. Click **Create New** (top right).
2. Drag your photo into the upload box, or click to choose a file.
3. Type a short caption in **Caption / alt text**. This describes the photo for visitors and search engines.
4. Click **Publish**. It appears in the website gallery within a minute.

Photo size: use a good-quality photo, at least 1200 pixels on the longest side. If a photo is too small, the system will let you know. Photos straight from a phone or camera are always fine.

Adding a new gallery photo

4. Blog posts

Share news and stories with a full writing area.

1. Click **Blog**, then **Create New**.
2. Type a **Title**. The web address fills in automatically.
3. Add a hero image if you have one.
4. Write your post in the editor. You can use headings, bold, links, and lists.
5. Set a publish date, then click **Publish**.

Writing a blog post

5. Events

Add upcoming events to the Events page.

1. Click **Events**, then **Create New**.
2. Enter the title, date, and location.
3. Add a description and an image if you have one.
4. Click **Publish**.

When there are no published events, the Events page shows a friendly "Stay tuned" message instead.

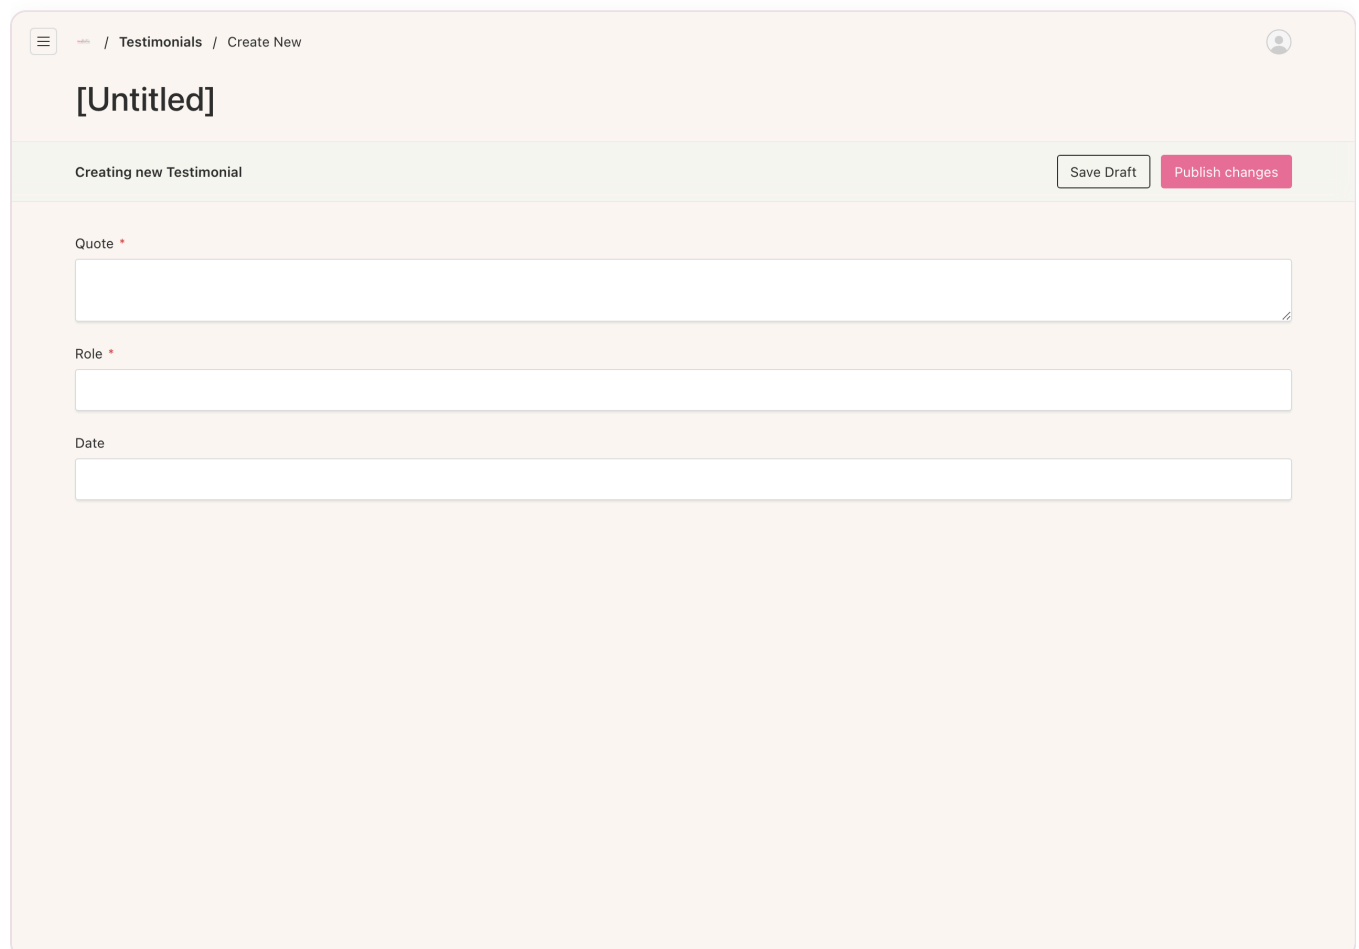

The screenshot shows a web application interface for creating a new event. At the top, there is a navigation bar with a hamburger menu icon, a breadcrumb trail reading "/ Events / Create New", and a user profile icon. Below the navigation bar, the page title "[Untitled]" is displayed. The main content area is titled "Creating new Event" and contains several input fields: a "Title" field with a red asterisk, a "Date" field with a red asterisk and a calendar icon, a "Location" field, and a "Description" field with a placeholder text "Start typing, or press '/' for commands...". At the bottom, there is an "Image" section with two buttons: "Create New" and "Choose from existing", separated by the word "or". To the right of these buttons is a text prompt "or drag and drop a file". In the top right corner of the form, there are two buttons: "Save Draft" and "Publish changes".

Adding an event

6. Testimonials

Quotes from families, support workers, and the community.

1. Click **Testimonials**, then **Create New**.
2. Type the **quote**.
3. Add the **role** of the person (for example, Parent or School Support Worker). Names are kept private.
4. Add a date if you like, then click **Publish**.

The screenshot shows a web application interface for creating a new testimonial. At the top, there is a navigation bar with a hamburger menu icon, a breadcrumb trail reading "/ Testimonials / Create New", and a user profile icon. Below the navigation bar, the title "[Untitled]" is displayed. A light green banner contains the text "Creating new Testimonial" on the left, and two buttons, "Save Draft" and "Publish changes", on the right. The main form area has three input fields: "Quote" (with a red asterisk), "Role" (with a red asterisk), and "Date". Each field is represented by a long, empty white text box.

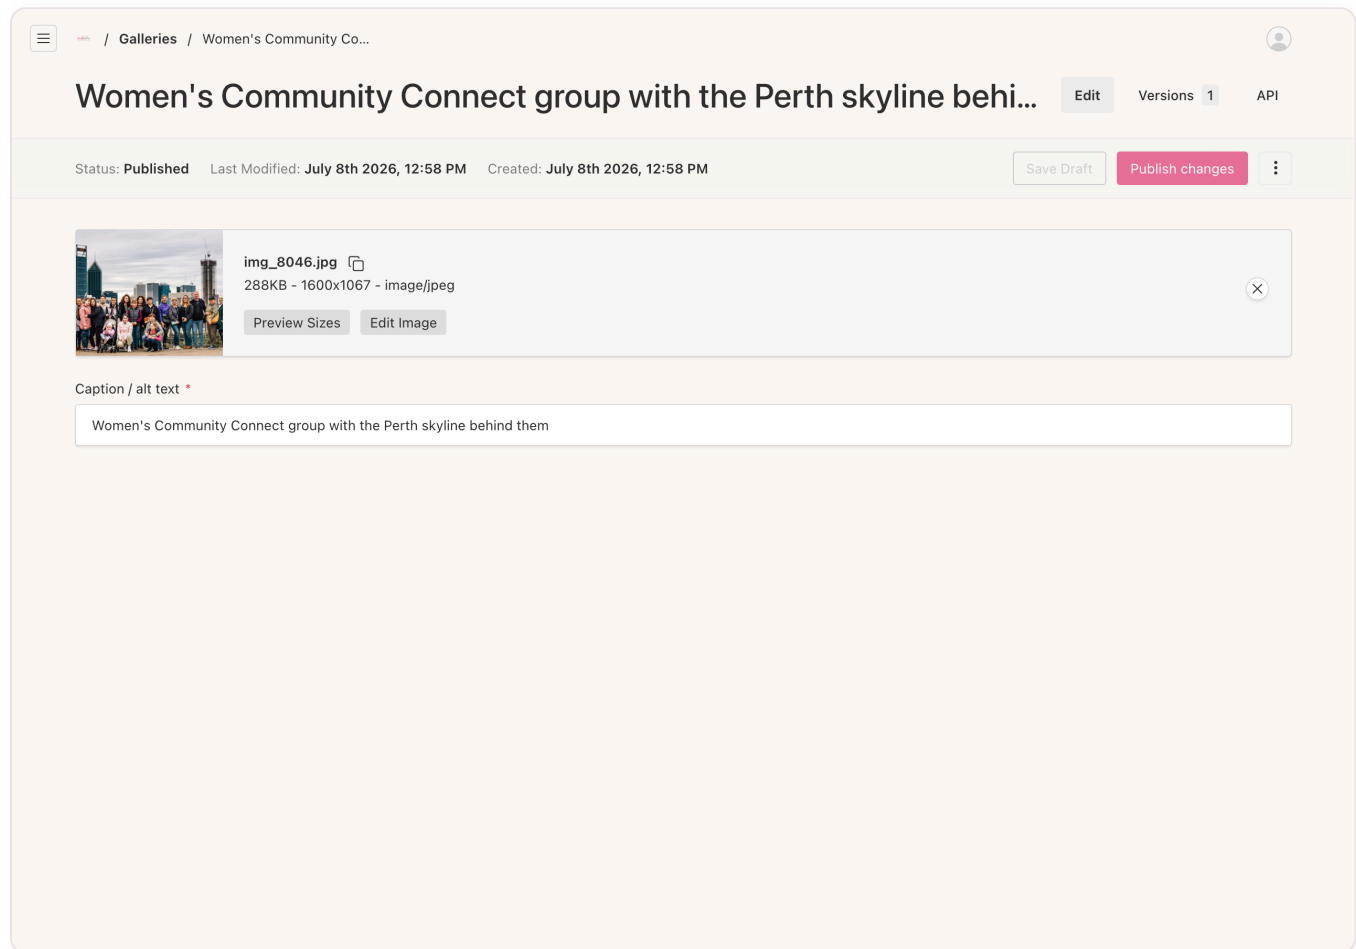

Adding a testimonial

7. Publishing and drafts

Every item has two ways to save, shown in the top right when you are editing.

- **Save as Draft** — keeps your work private. It does not appear on the website. Come back and finish it later.
- **Publish** — puts it live on the website within about a minute.

You can unpublish something at any time by changing it back to a draft.

The screenshot shows a web interface for editing a gallery item. At the top, there's a breadcrumb trail: "/ Galleries / Women's Community Co...". The main title is "Women's Community Connect group with the Perth skyline behi...". To the right of the title are buttons for "Edit", "Versions 1", and "API". Below the title, a status bar shows "Status: Published", "Last Modified: July 8th 2026, 12:58 PM", and "Created: July 8th 2026, 12:58 PM". On the right side of this bar are buttons for "Save Draft", "Publish changes", and a three-dot menu. The main content area features a large image of a group of women standing in front of the Perth skyline. Below the image, there's a caption field with the text "Women's Community Connect group with the Perth skyline behind them".

The Publish controls appear at the top right when editing

8. Deleting and restoring

Deleting is safe. Removed items go to a **Trash** bin, not gone for good.

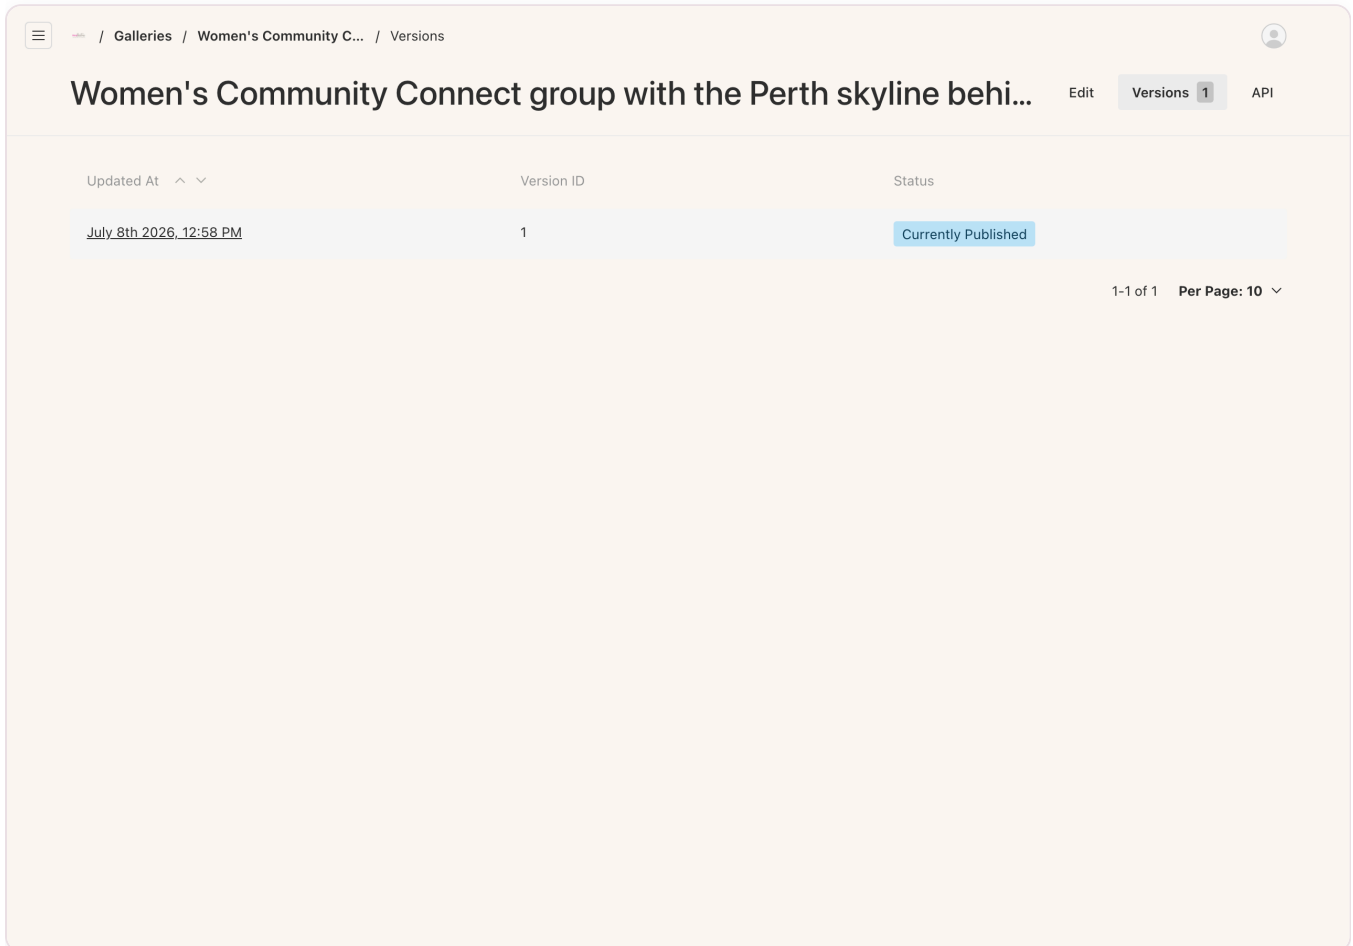

1. Open the item, click the : menu (top right), and choose **Delete**.
2. To get it back, open the **Trash** view for that section, open the item, and choose **Restore**.

Only empty the Trash when you are sure. Emptying it removes items for good.

9. Undoing a change

Every item keeps a history of its previous versions. If you make a change you are not happy with, you can go back.

1. Open the item and look for its **Versions** history.
2. Pick an earlier version and choose **Restore**.

The screenshot shows a web interface for managing gallery items. At the top, there is a breadcrumb trail: "/ Galleries / Women's Community C... / Versions". The main title of the item is "Women's Community Connect group with the Perth skyline behi...". To the right of the title are links for "Edit", "Versions 1", and "API". Below the title, there is a table with three columns: "Updated At", "Version ID", and "Status". The table contains one row with the following data: "July 8th 2026, 12:58 PM" under "Updated At", "1" under "Version ID", and "Currently Published" under "Status". At the bottom right of the table, there is a pagination indicator "1-1 of 1" and a "Per Page: 10" dropdown menu.

Updated At	Version ID	Status
July 8th 2026, 12:58 PM	1	Currently Published

Version history — restore an earlier version any time

10. Staff logins

You can give other staff their own login. There are two levels:

- **Admin** — full control, including managing other users. This is you.
- **Editor** — can manage all the content (Gallery, Blog, Events, Testimonials) but cannot see or change user accounts.

Click **Users** on the dashboard to see your staff logins.

☐	Email ^ v	Role ^ v	Name ^ v	Logout
☐	gavinbrown26@gmail.com	Editor	<No Name>	<No Logout>
☐	gavin@gbit.au	Admin	<No Name>	<No Logout>

1-2 of 2 Per Page: 10 v

Your staff logins

Add a staff member

1. Click **Create New** (top right).
2. Enter their email, set a password, and choose the role **Editor**.
3. Click **Save**. They can now log in with their own details.

11. Your account and logging out

Your account page lets you change your own password. It also has the **Log out** button at the bottom.

To log out, open your account page and click **Log out**, or add `/admin/logout` to your website address.

The screenshot shows a user account page for 'gavin@gbit.au'. The page has a light orange background. At the top, there is a breadcrumb trail: 'Users / gavin@gbit.au'. Below this, the email address 'gavin@gbit.au' is displayed in a large font. To the right of the email, there is a 'Save' button and a three-dot menu icon. Below the email, there is a section for 'Email' with a red asterisk, containing a text input field with 'gavin@gbit.au'. Below this input field are two buttons: 'Change Password' and 'Force Unlock'. Below the email section, there is a section for 'Role' with a red asterisk, containing a dropdown menu with 'Admin' selected. Below the role section, there is a section for 'Name' with an empty text input field. Below the name section, there is a 'Log out' button with a red background and a white icon. At the bottom of the page, there is a section for 'Payload Settings' with a 'Language' dropdown menu set to 'English'.

Your account page, with the Log out button
